INSTAGRAM ACCOUNT AUDIT REPORT

@tsteezylive

PREPARED SEPTEMBER 17, 2026

PREPARED BY ALTR

SCOPE PUBLIC PROFILE, LINK FUNNEL, RECENT CONTENT REVIEW

CONFIDENTIAL — PREPARED FOR THE ACCOUNT OWNER

01 /

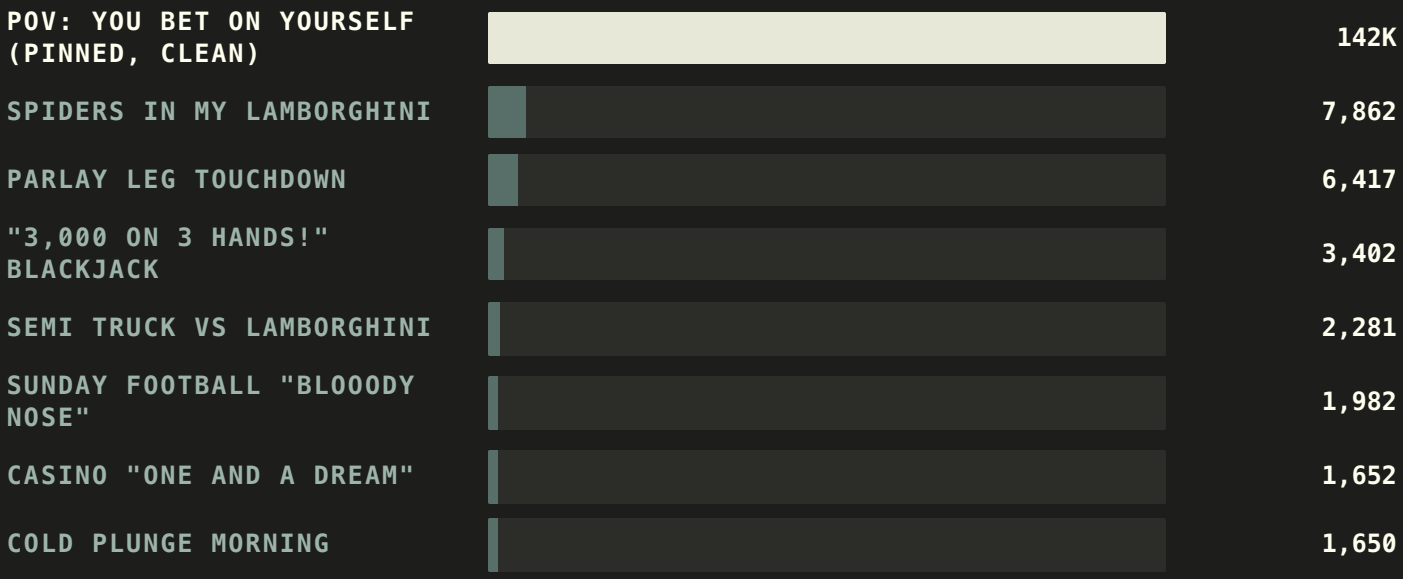

SNAPSHOT

RISK GRADE	FOLLOWERS	RECENT REEL VIEWS	PINNED REEL VIEWS
F	201K	1.6–7.8K	142K
Removal-layer exposure	Verified · following 563	0.8–4% of audience	Reach works when content allows

2 CRITICAL | 3 HIGH | 3 MEDIUM | 1 LOW

THE PROBLEM IN ONE SENTENCE

The account's entire monetization model — casino referral code in the bio, Rainbet referral + geo-routing link one hop away, native casino-ad reels, and a paid trading Discord sold with fabricated-looking profit claims — is built on two categories Meta enforces at the removal/strike layer. No caption rewrite fixes that; the funnel has to come off Instagram.

Views per reel, Reels tab, Sept 17 2026 · 201K followers · recent reels reach 0.8–4% of the audience the pinned reel proves is reachable.

02 /

THE THREE MOVES

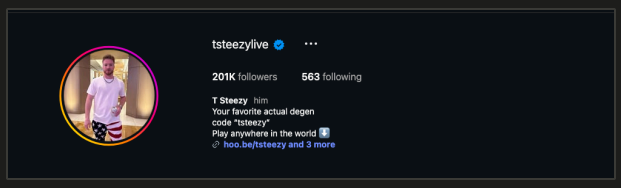

Views above are public Reels-tab counts: one clean pinned reel reaches six figures while everything recent flatlines — account-level suppression, visible from outside. Everything in this report supports three moves, all executable today:

Move 1 — today: Strip "code 'tsteezy'" and "Play anywhere in the world" from the bio; pull Rainbet and the zotatraff redirect off hoo.be.

Move 2 — today: Delete the three worst posts: the Rainbet-ad reel, the "$68M / 91.9% win rate" reel, and the "1,000,000/m crypto strategy" reel.

Move 3 — today: Unpin the apparent Tristan Tate photo and the "2 lambos in 1 month" trading flex.

Everything else in this report is detail supporting these three moves — and the case that the clean lifestyle content already outperforms the promo content.

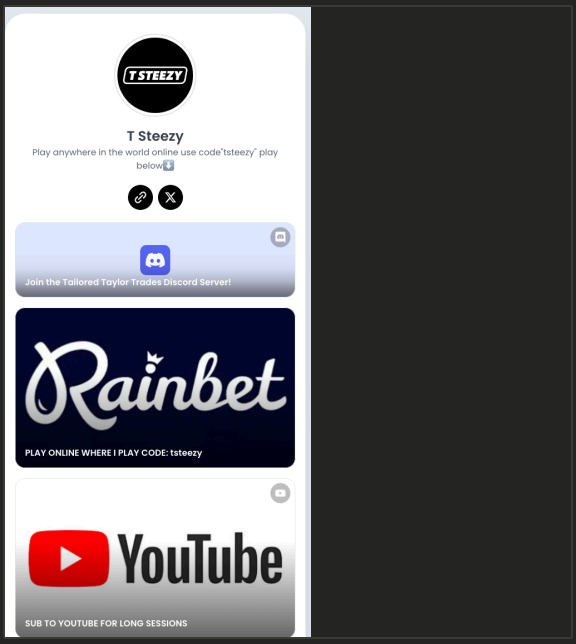

– The bio IS the violation: "Your favorite actual degen / code "tsteezy" / Play anywhere in the world ⬇️" — a casino referral pitch on the profile surface itself.

03 /

ACCOUNT-LEVEL FINDINGS

CRITICAL — AN UNPERMITTED REAL-MONEY GAMBLING FUNNEL, ON-PLATFORM

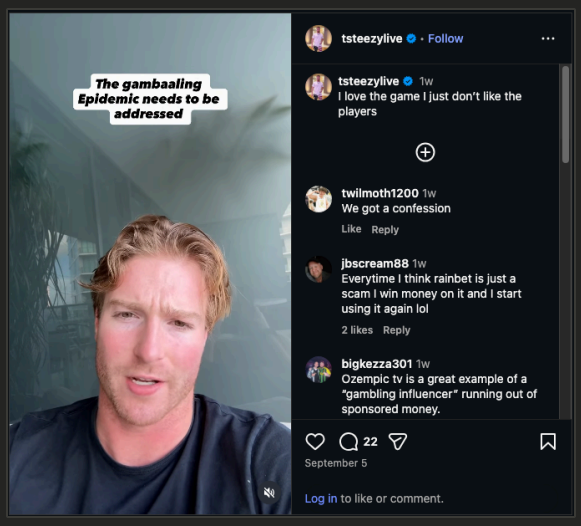

- **The machine:** bio code + "Play anywhere in the world" → hoo.be one hop out → **"PLAY ONLINE WHERE I PLAY CODE: tsteezy"** on Rainbet, plus a **zotatraff.com geo-routing affiliate redirect** and a Kick giveaway card. Native reels advertise Rainbet directly — the Sep 5 reel's own comments call it ("bruh you had me til rainbet ad lmao"). No paid-partnership labels anywhere.
- **Policy:** real-money gambling promotion requires Meta's prior written permission; referral promos never have it. **Removal/strike layer.** The geo-workaround framing is the version platforms and regulators treat most harshly.

— One hop from the bio: Rainbet referral with code, the "Tailored Taylor Trades" Discord, Kick giveaways, YouTube "long sessions." The whole funnel in one frame.

- **Why rewording can't fix it:** the bio, the link chain, the pinned content, and the ad reels are scored together as one pattern. The funnel must come off Instagram — gambling monetization lives on Kick/stream platforms that permit it.

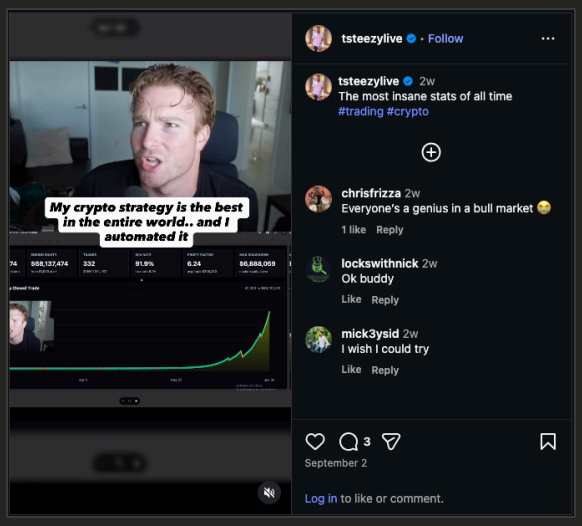

- **The ad reel, in his audience's own words:** "Everytime I think rainbet is just a scam I win money on it and I start using it again lol" · "Rainbet is a scam" · "'Gotten outta control' like you arent 100% profiting from it 😭" · "…a 'gambling influencer' running out of sponsored money."
- The overlay's deliberate misspelling — "gambaaling" — is filter evasion, covered as its own finding below.
- **Fix:** delete this reel today; archive the casino-table set this week.

– Sep 5 reel: concern-framed, but a casino ad – and the comment section knows it.

CRITICAL — FABRICATED-LOOKING TRADING CLAIMS SELLING A PAID DISCORD

- **The claims:** "$68,137,474 ending equity · 332 trades · 91.9% win rate" under "My crypto strategy is the best in the entire world.. and I automated it"; a second reel titled "1,000,000/m crypto strategy"; a pinned "2 lambos in 1 month" post. All of it feeds the "Tailored Taylor Trades" Discord.
- **Policy:** deceptive financial-services promotion — unrealistic earnings claims selling financial access. Removal-layer, and the pattern (cash flex + "use my code" + too-good-to-be-true stats) is the exact template Meta's scam classifiers train on.
- **Fix:** no compliant version of these numbers exists. Delete the claims posts; any future trading content is process-not-profits, with disclosure.

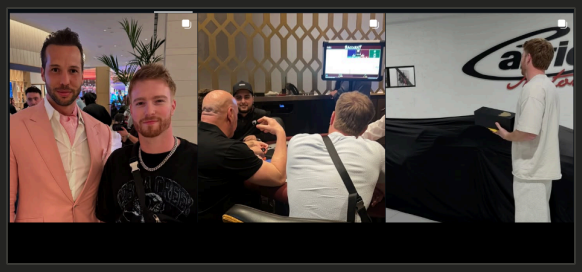

— Sep 2 reel: the $68M / 91.9% dashboard. Audience comments take it at face value ("I wish I could try").

HIGH — DELIBERATE FILTER-EVASION SPELLING

- "gambaaling," "blooody" — misspellings engineered to dodge keyword filters. Meta treats adversarial evasion as proof of knowing violation: it upgrades demotions to strikes and poisons appeals. It also doesn't work — classifiers read audio, video, and context.
- **Fix:** stop everywhere, immediately; never cite these posts in an appeal.

HIGH — PINNED ROW LEADS WITH THE THREE BIGGEST RISK SIGNALS

- The first thing any reviewer (or brand) sees: an apparent Tristan Tate photo (the Tates are banned from Meta platforms; celebratory content is itself enforceable), a baccarat table with UFC brass tagged "#gambling," and a Lamborghini reveal captioned "2 lambos in 1 month… #trading."
- **Fix:** unpin all three today. The UFC/Vegas personality content can stay in the grid — un-pinned and un-hashtagged — but the Tate frame should be archived entirely.

– The pinned row at audit time: banned-individual association, casino table, earnings-claim flex – before a reviewer sees a single reel.

MEDIUM — THREE COMPOUNDING CONTENT PATTERNS

- **Addiction confessionals while selling the casino:** "Not proud of it, man enough to say it" (top comment: "Train your brain to enjoy lower stakes"), "I think I'm addicted," "I went risked it all." Self-harm-adjacent moderation bucket + the combination that draws reports. It cannot coexist with selling the product.
- **Casino-floor and betting-slip content generally:** age-gated, teen-filtered, non-recommendable even when it doesn't strike. While gambling is the content spine, the reach ceiling stays near zero.
- **Kick giveaway promotion:** gambling-adjacent giveaway inducement; keep giveaways fully on Kick, unreferenced from Instagram.

LOW — WHAT'S ALREADY HEALTHY

- Following count (563) is clean; LIFE/SKIING highlights are clean lifestyle content. Sweep the STREAMING highlight for casino clips (not visible logged-out).

04 /

CONTENT FINDINGS

#	POST (DATE)	ISSUE	SEVERITY	ACTION
1	Sep 14 reel — "I need to find these beans"	Clean lifestyle bit	LOW	Keep
2	Sep 5 reel — "gambaaling" Rainbet ad	Unlabeled casino ad + evasion	CRITICAL	Delete today

#	POST (DATE)	ISSUE	SEVERITY	ACTION
3	Sep 3 reel — "It's all public"	Trading-receipts flex → Discord funnel	HIGH	Delete or strip claims
4	Sep 2 reel — $68M / 91.9% dashboard	Unsubstantiable earnings claims	CRITICAL	Delete today
5	Aug 31 reel — raccoon (137 likes)	Clean	LOW	Keep
6	Aug 27 reel — Lambo spiders (593 likes, 7.8K views)	Clean; best recent performer	LOW	Keep — the model
7	Aug 1 reel — "Not proud of it" (467 likes)	Gambling-loss confessional	MEDIUM	Archive
8	Jul 31 reel — "risked it all" (403 likes)	Gambling-loss content	MEDIUM	Archive
9	Jul 27 reel — golf 6-iron (62 likes)	Clean	LOW	Keep
P1	Pinned Mar 2025 — Vegas/UFC, apparent Tate, #gambling	Banned-individual + gambling	HIGH	Unpin; archive Tate frame
P2	Pinned Aug 2025 — birthday dump #degen	Hashtag hygiene	LOW	Retag
P3	Pinned Nov 2025 — "2 lambos in 1 month"	Earnings-claim flex	HIGH	Unpin; cut the claim

Also on the grid (permalinks not exposed logged-out): the "1,000,000/m crypto strategy" reel (CRITICAL *— delete with #4), the clean 142K "POV: You bet on yourself" pinned reel (keep), and the blackjack/parlay set (* MEDIUM *— archive with the casino content).*

05 /

TWO ACCOUNTS, ONE GRID

WHAT WINS — KEEP & SCALE

- Lambo spiders — 7,862 views · 593 likes
- "POV: You bet on yourself" — 142K views
- Raccoon rescue, golf fails, cold plunge, skiing
- Vegas personality without a table in frame

WHAT KILLS — REMOVE

- Casino code in bio + Rainbet funnel
- $68M / 91.9% trading claims → paid Discord
- Casino tables, parlay slips, loss confessionals
- Evasion spellings; Tate pin; #gambling #degen

The client's own numbers make the argument: the clean content is his best-performing content. This isn't a reinvention — it's a subtraction.

06 /

ACTION PLAN

Today (urgent — standing strike inventory):

1. Bio: delete the code line and "Play anywhere in the world"; rewrite as lifestyle-brand copy ("Vegas. Golf. Bad decisions with good lighting.").
2. Links: remove Rainbet + zotatraff from hoo.be (and the Discord card while it's sold with earnings claims).
3. Delete reels #2 and #4 and the "1,000,000/m" reel; unpin P1/P3.

This week:

1. Archive the casino-table set and both loss-confessional reels.
2. Stop all evasion spellings permanently.
3. Sweep STREAMING highlight + stories for casino content.

4. **Settings → Account Status:** screenshot both panels; appeal only genuinely clean removals.
5. Move gambling monetization entirely to platforms that permit it; zero Instagram breadcrumbs.

Ongoing:

1. 2–3 lifestyle-comedy reels weekly in the proven lane (animals, golf, cars, Vegas absurdity).
2. Trading content, if any: process-not-profits, no dollar amounts, disclosure on anything sponsored.
3. Expect reach to move in 4–6 weeks post-cleanup; if it doesn't, the existing strike history (Section 7) is the blocker — decay timelines show in Account Status.

07 /

WHAT WE NEED FROM THE CLIENT

1. **Settings → Account Status** — both panels + all violation notices from the last 180 days (category and date).
2. **Insights → Reach → non-follower %** (30/90 days) and view counts on the like-hidden posts.
3. Rainbet sponsorship terms; the Discord's pricing/pitch materials.
4. Contents of the STREAMING highlight.
5. Any past boosting/ad activity on gambling content.

Re-audit at 30 days: confirm deletions, link chain clean, Account Status trajectory, and new reels climbing off the 2K floor.

This audit assesses compliance with Meta's published Community Standards, Recommendation Guidelines, and restricted-goods policies as understood at the audit date. Enforcement is partly discretionary; no

compliance change guarantees restored reach. All recommendations aim at genuine compliance — we do not advise disguising violating content (including the misspelling tactics documented above), which converts reach problems into account-loss problems.
