ALTR MANAGEMENT

Model Intake Form

Streamlined Edition

This form helps our management and chat teams understand you, your boundaries, and how you want to be represented to fans. It replaces all previous intake forms — completed once and used as the reference document for everyone who works on your account.

Answer everything based on how your account is **MARKETED**, not your personal life. If a fan asks something not covered here, the chat team will deflect or ask you — they will never make it up.

The more detail you provide, the better we can capture your tone, personality, and preferences. If you don't want to answer something, write a dash (–). If anything is unclear, ask before submitting.

Never share passwords over unsecured channels. Login details can be provided separately through a secure channel if you prefer.
