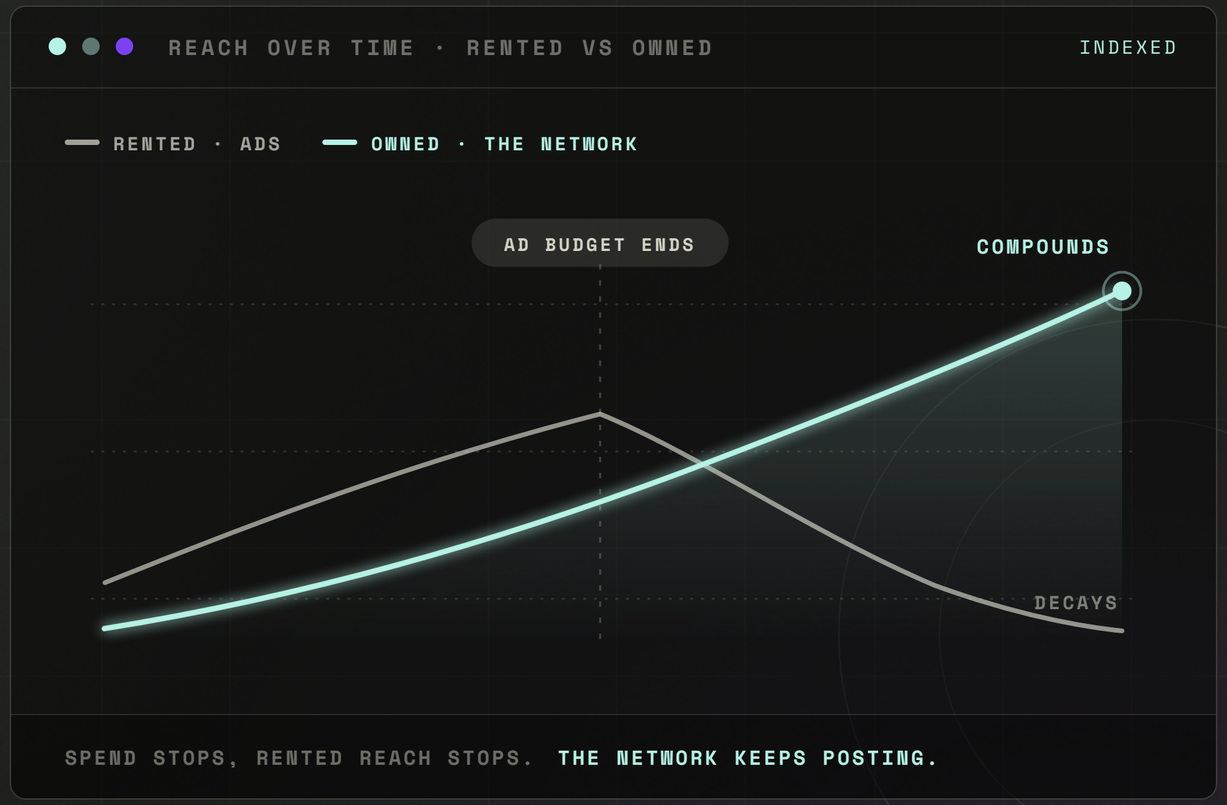
01 / THE THESIS

Agencies *rent* attention. We own it.

Ads are borrowed reach on someone else's inventory, a gamble against an algorithm you don't control. ALTR owns the pages, the systems, and the distribution itself. **Reach stops being a gamble and becomes infrastructure.**



02 / MISSION

"To control and deploy attention at scale by owning the infrastructure that drives *organic reach*."

01 **Control**
Attention on demand, not by luck.

02 **Deploy**
At scale, across 2,000+ owned pages.

03 **Own**
The infrastructure itself. Never rented.

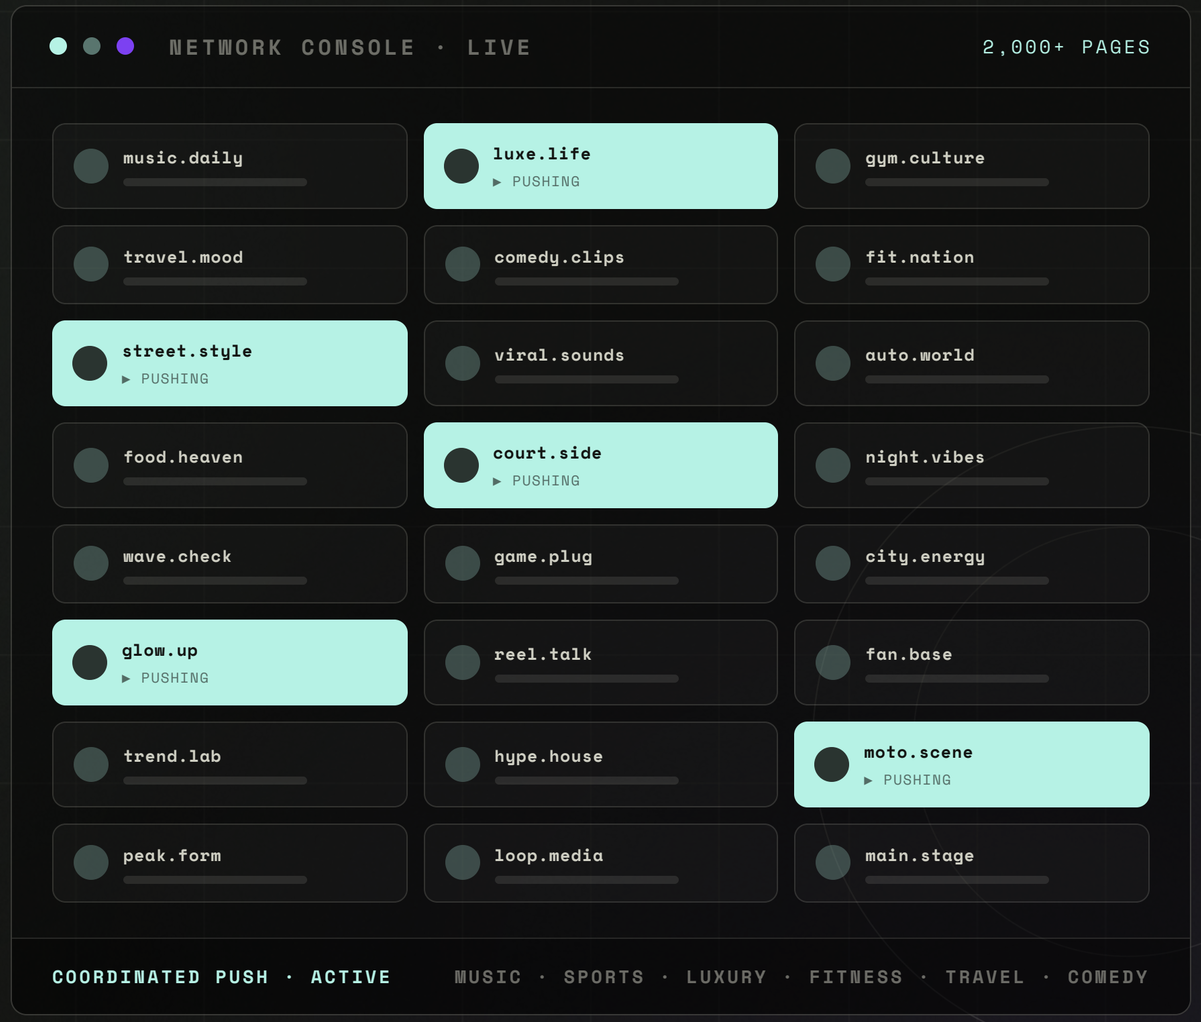
03 / THE NETWORK

2,000+

OWNED NICHE PAGES ACROSS INSTAGRAM & SHORT-FORM

INSTAGRAM · TIKTOK · SHORT-FORM

Thousands of theme pages, one coordinated machine. No ad budget dependency, no rented inventory. **Momentum manufactured on infrastructure we control.**



04 / WHO RIDES THE ENGINE

Built for anyone who needs *momentum*.

01	**Music & artists**	Songs and sounds pushed to escape velocity: repost velocity, sound stacking, timing.
02	**Personal brands**	Founders, athletes, public figures who need momentum that looks, and is, organic.
03	**Digital brands & offers**	Products and funnels that need reach before conversion.
04	**Creators**	Top-of-funnel attention at scale, ready for downstream teams to convert.
05	**Agencies & labels**	White-label campaigns and licensing on ALTR infrastructure.
06	**The ALTR ecosystem**	Our own ventures ride the same engine. The proof runs 24/7.

06

AUDIENCES. ONE ENGINE.

05 / SERVICE LINES

Five ways to buy the machine.

01	**Owned media distribution**	Network boosts across thousands of owned niche pages.
02	**Campaign amplification**	Viral-on-demand rollouts: repost velocity, sound stacking, algorithm timing.
03	**Growth systems**	Building and scaling theme-page networks for your vertical.
04	**Content marketing & creative**	Hook-driven creative engineered from what the network proves at scale.
05	**Brand partnerships**	Sponsored placements, multi-page bundles, placement retainers.

06 / HOW A CAMPAIGN WORKS

Simple for the client. *The machine is ours.*

01

You bring the moment

Content, sound, or objective. A drop, a launch, a campaign that needs eyes.

02

We set the machine

Theme verticals, cadence, and intensity selected for your audience.

03

The network pushes

Coordinated distribution across the owned page network.

04

Traffic spills to you

Into your profiles, pages, and funnels. Audience you keep.

Viral is a **process**, not luck: engineered momentum, repeatable per campaign.

07 / THE FEEDBACK LOOP

The network is also a *testing lab*.

Hooks and topics get validated across thousands of posts before a single dollar of your momentum is spent on them. **Winners become strategy. Losers die quietly in the lab.**

STEP 01

Test at scale

New hooks run across thousands of posts.

STEP 02

Prove winners

The network shows what actually carries.

STEP 03

Deploy for clients

Your campaign launches on proven hooks only.

NEW AUDIENCE, NOT RECYCLED REACH

The network doesn't recycle an existing audience. **It manufactures a new one.**

09 / COMMERCIAL MODELS

Priced the way you run.

01 /

Campaign packages

Per drop, launch, or moment. A defined push with a defined window.

02 /

Monthly retainers

Always-on amplification. A permanent presence inside the network.

03 /

Volume promotion

Scale pricing across placements for heavy, recurring pushes.

04 /

Performance / CPA

Outcome-priced structures where objectives are measurable.

05 /

Licensing & white-label

Agencies and labels running their campaigns on ALTR infrastructure.

06 /

Full-stack bundles

Media, Signal, and Management combined as one engagement.

The moat is *ownership*.

THE OLD PLAYBOOK

- ✕ Rent reach with ad budgets
- ✕ Pray to an algorithm they don't control
- ✕ One-off virality, luck-based
- ✕ Spend first, learn later
- ✕ Recycled follower reach

VS

THE ALTR WAY

- ✓ **Own the pages, systems, and reach**
- ✓ **Engineered momentum, repeatable per campaign**
- ✓ **Viral as a process: velocity, stacking, timing**
- ✓ **Test across thousands of pages first**
- ✓ **98.8% non-follower reach: new audience**

11 / THE ECOSYSTEM

Buy the engine. Or the whole *machine*.

Separate brands, separate contracts. Full-stack when you want it.
